Description

Bag & baskets easy to attach

The "KF" Handlebar Bracket from BASIL is a practical medium for attaching a removable bike basket or Handlebar Bag. The Handlebar Bracket can be combined with bicycle accessories that are equipped with the BASIL "KF" Adapter Plate or the BASIL "BasEasy"/"KF" Adapter Plate.

The system is attached to the handlebar tube of the bicycle handlebar. The Bracket also fits most city bikes, both men's and women's bikes. The Handlebar Bracket is also suitable for e-bikes with a Display, for example from Bosch.

The Handlebar Bracket is suitable for Handlebars with a diameter of 22 to 31.8 mm. The plastic Bracket is quick and easy to fit. It can be adjusted at the corner and is extremely stable thanks to the assembly.
