

fi'zi:k Handlebar Tape "Terra Microtex Bondcush Tacky"

Description

For the best grip on gravel

Making off-road heroes happy. A special handlebar tape for gravel bikes is something special. With the "Terra Microtex Bondcush Tacky", FIZIK presents a grip tape that is perfect for anyone who rides their bike off-road.

The design of the handlebar tapes meets the highest requirements. For example, a layer of polymer foam helps to dampen vibrations and shocks. In combination with 3 mm thick Microtex, this results in comfort and outstanding durability. The Handlebar Tape is particularly versatile.

There is no adhesive strip. Instead, a gel layer promises additional damping. It also makes it easier to remove the tape when you want to clean the bike. In addition, the non-slip tacky surface with a textured finish provides very good grip in all conditions.

The Handlebar Tape weighs 71 g and is available in a range of attractive paints to suit gravel and off-road. It enables high performance, especially off the beaten track.

Article number:	08199523
Original number:	BT12A00054
EAN:	8021890466792
EVP:	43.90 €

Technical data

Width	3.0 cm
Features	self-adhesive
Range of application	Gravel, Road
Colour designation	brown
Main colour	brown
Length	235.0 cm
Material 1	Microtex
Bar plugs material	Plastic
Material thickness	3 mm
Surface	non-slip
Weight	0.127 kg
