Size (D)	42,0
Material	rubber
Material 2	nylon
Material 3	polyurethane (PU)
Inlining material	leather
Sole material	rubber
Top material	polyurethane (PU)
Weight	0.721 kg
Closure system	lacing

Description

Grippy & durable
A shoe for trail rides, all-mountain adventures, and more–that's the "Terra Ergolace X2" from FIZIK. This versatile MTB Shoe is designed for flat pedals and, with its grippy lug pattern, gives you optimal stability on the bike and plenty of traction off the bike when it comes to tackling sections where you have to carry your bike. The flat "X2" outsole also provides support–no matter what terrain you're riding on. The shoe's "Ergolace" design hugs the foot and rounds out the fit with an ergonomic lacing system.

The durable upper is tear-resistant, and its ripstop fabric offers excellent protection against rain, wind, and mud. To ensure your toes are well-protected on steep turns, the toe box is specially laminated with a PU material. It's no coincidence that the shoe fits your foot like a second skin. The developers at FIZIK made sure to reduce weight and eliminate excess material in the "Terra Ergolace X2." A clunky look and loose fit are a thing of the past–this shoe stands out with a slim silhouette and looks great even off the Saddle.
