

TRELOCK Frame Lock "RS 480 XL"

Description

RS 480 XL Frame locks from TRELOCK Quick and easy to use: The TRELOCK RS 480 XL is a frame lock, ideal for the daily quick stop at the bakery. The bolt, which slides through the spokes, makes it impossible for opportunist thieves to simply swing arms onto your bike and ride away. The frame locks can be locked with a key. When open, the keys remain in the Lock. This keeps everything in place and you don't have to worry about where to find the small key.

Article number:	03525169
