

Product data sheet

SONAX Car shampoo "TrockenWäsche"

Description

SONAX Car Shampoo "Dry Wash"

Ready to use, vehicle cleaning without water

For waterless, gentle cleaning of vehicles. The unique formula contains care components that bind to the dirt and encapsulate it so that there is no scratching when wiping. As no waste water is produced, you can wash anywhere and at any time. Also suitable for matt films and matt paints. For quick washing without water.

Application:

Shake before use and fill into a pressure pump sprayer for acids + alkalis (Art. No.: 4.02 62 26/3). Spray the product all over small areas of the vehicle and wipe immediately with a microfiber cloth. First wipe over the entire sprayed area in a single straight line and only with light pressure, then turn the cloth over and wipe the area dry without leaving streaks. Fold the cloth regularly so that there is always a new, fresh side on the outside. Several cloths are required for a complete vehicle.

Note: The dry wash is not suitable for heavy soiling!, **5 l canister**
