KMC Chain "X12"

Description

12-speed chains from KMC

Do you like sporty riding and your chains have to be able to take a beating? Then take a closer look at the X12 chain. The manufacturer KMC produces it especially for MTB and road bikes.

If you ride a bike with 12-speed drives, the X12 chain is just right for you. With its 126 links, the chain is made of durable steel.

A special anti-rust coating makes the chain particularly robust and hard-wearing. In order to be able to close the chain properly, a Connecting Link is included in the scope of delivery, which connects the two loose ends.
