### Description

Our Rush Revo Sport Glasses are available with a matt polarized white or matt black half frame made from G850 plastic. The material is lightweight yet strong and flexible. Thanks to polycarbonate, a thermoplastic material, the lenses are shatterproof and also ensure that you are not dazzled during your ride. The Rush Revo relieves strain on your eyes and also prevents fatigue so that you can enjoy your ride for longer.

Even if you're riding on uneven ground or a winding route, you don't have to worry about losing your glasses while riding thanks to the non-slip Nose Pads.

The mirrored glasses in cypher green or gold adorn the sporty look of the glasses.

### Technical data
