

SCHWALBE Tires "Road Cruiser Active Line"

Description

"Green" on the road

Urban, individual and dynamic: The newly revised "Road Cruiser" from SCHWALBE impresses with its appealing tread design, which enables low rolling resistance. There is a choice of numerous color variants in sizes from 12" to 28".

However, the outstanding feature of the "Road Cruiser" is in the tread and is called Green Compound. This is a rubber that is made from renewable and recycled raw materials. It is so good that SCHWALBE has been able to use it in a conventional bicycle tire for the first time. Green Compound is only available in tire versions with a black tread.

Article number:	08539652
Original number:	11159321
