Description

SPEEDBRAKES "Vario" steel flex line
175 - 200 cm
The Vario system is a variable screw system for professional use in the workshop.
The prefabricated Vario lines can be combined with all available Vario connections, allowing an individual brake line kit to be assembled directly on site.
an individual brake line kit can be put together directly on site.
In addition, the slim Vario thread opens up completely new possibilities for car publishing. E.g. through frames or similar.
All Vario cables are supplied with a TÜV certificate and can be used with high-strength screw locks., **195cm, transparent**
