| Main colour | black       |
| Type        | 2-post lift |
| Length      | 100.0 cm    |
| Material 1  | rubber      |
| Weight      | 23.200 kg   |

### Description

#### **BUSCHING Ramp**

**universal, rubber, for lifts, 50 x 480 x 1000mm, incl. 2 integrated handles**

Suitable for all scissor lifts, as well as 2- and 4-post lifts. The ramps enable the vehicle's approach angle to be reduced in order to avoid contact with the sill or the underbody. Furthermore, due to the elevated position of the vehicle, a rubber block or the support arm fits between the lifting platform and the vehicle, so that safe lifting is ensured. Made of dense high quality rubber granules, the ramps are very resistant as well as liquid repellent and due to the high weight, the panels rest firmly on the ground without the need to fix them., **weight: 23,2kg**
