

Product data sheet

VICTORIA Electric full suspension "PARCOURS 4" (#1)

Description

With the "PARCOURS" series, Victoria offers a cross-over series which, compared to the "AVYON" and "FYBRON" series, has an air-suspended chassis and thus takes the topic of comfort even further. The "PARCOURS 4" is the entry-level model.

The frame cleverly conceals the Damper with the two seat tube halves, making it look nothing like a fully at first glance. The cover for removing the "PowerTube 625" batteries is also located on the down tube. The battery can therefore be removed effortlessly from the top. Alternatively, the Battery can be charged in the bike - which is also possible and saves you having to remove it.

The lowerable seatpost is also convenient, for example when stopping at traffic lights. A special feature is the compact design Stem, which gives the bike a very dynamic riding performance by Victoria standards.

The 60 mm wide Schwalbe "AI Grounder" tires provide optimum grip even on unpaved roads. The sporty Bosch "Performance CX" mid-motor guarantees full support with 85 Nm torque. Even on steep uphill stretches, it motivates you up to 25 km/h.

The Shimano 10-speed "Deore" derailleur gears in the robust Linkglide version round off the drive package. The gear ratios and gear steps are designed for steep climbs and fast descents on varied terrain. Large hydraulic disc brakes (203/180 mm) ensure the right level of safety.

Sturdy aluminum Fenders and a MIK System Carrier round off the all-rounder's equipment. Reflective Stripes on the tires and the lights ensure roadworthiness. A full 120 lux at the front illuminates every dark corner, while the rear of the bike is equipped with a rear light including a stop light function for extra safety. This makes it easier for cyclists behind to react to spontaneous braking maneuvers, which are often unavoidable on the way home through the city.

Technical data

Battery capacity	625.0 Wh
Features	suspension fork, system carrier, chain guard, electronic sliding aid, fender
Colour designation	good grey metallic
Main colour	grey
Secondary colour	black
Travel	100 mm
Gender	ladies
Gears	10-speed
Type	trekking bike
Wheel size	27,5 "
Material 1	aluminium
Engine power	250 W
Frame height	56 cm
Weight	29.500 kg
Permissible system weight	140 kg
Chainstay	500 mm
Toptube	619 mm
Wheel distance	1218 mm
Reach	425 mm
Seat tube	560 mm
Seat angle	73.0 °
Stack	635 mm
Steering tube	175 mm
Steering tube angle	68.0 °
