Original number:	KHA250620
EAN:	4251971152021
EVP:	**5499.00 €**

Description

With the "PARCOURS" series, Victoria offers a crossover line that, compared to the "AVYON" and "FYBRON" series, features air suspension, thereby taking comfort to the next level. The “PARCOURS 4” is the entry-level model.

The frame cleverly conceals the Damper within the two seat tube halves, so at first glance it doesn’t even look like a full-suspension bike. And the Cover for removing the “PowerTube 625” battery is located on the down tube. This means the battery can be removed effortlessly from the top. Alternatively, the battery can be charged while still in the bike–which is, of course, also an option and saves you the trouble of removing it.

The adjustable Seatpost is also convenient, for example when stopping at traffic lights.
A special feature is the compact, stylish Stem, which gives the bike a very dynamic ride performance by Victoria standards.

The 60 mm-wide SCHWALBE “Al Grounder” tires provide optimal grip even on unpaved trails.
The sporty Bosch “Performance CX” mid-drive motor guarantees full assistance with 85 Nm of torque. Even on steep uphill sections, it propels you forward at speeds of up to 25 km/h.

The Shimano 10-speed “Deore” derailleur in the robust Linkglide version rounds out the drivetrain. The gear ratios and spacing are designed for steep climbs as well as fast descents on varied terrain. Large-diameter hydraulic disc brakes (203/180 mm) provide the right level of safety.

Sturdy aluminum fenders and a MIK System Carrier complete the features of this all-rounder. Reflective Stripes on the tires and the lighting system ensure roadworthiness. Up front, a full 120 lux illuminates even the darkest corners; at the rear, the bike is equipped with a Rear Light that includes a brake light function for added safety. This allows cyclists behind to react more effectively to sudden braking maneuvers, which are often unavoidable when riding through the city on the way home.

Technical data

Battery capacity	625.0 Wh
Features	suspension fork, system carrier, chain guard, electronic sliding aid, fender
Torque	85 Nm
Colour designation	good grey metallic
Main colour	grey
Secondary colour	black
Travel	100 mm
Gender	ladies
Gears	10-speed
Type	trekking bike
Wheel size	27,5 "
Material 1	aluminium
Engine power	250 W
Frame height	56 cm
Weight	29.500 kg
Permissible system weight	140 kg
Chainstay	500 mm
Toptube	619 mm
Wheel distance	1218 mm
Reach	425 mm
Seat tube	560 mm
Seat angle	73.0 °
Stack	635 mm
Steering tube	175 mm
Steering tube angle	68.0 °
