

CONTEC Handlebar "Mito 60"

Description

CONTEC handlebar

It is often underestimated, but it contributes a significant part to whether your next tour will be a pain or not: the handlebar. The Mito 60 from CONTEC is a handlebar with a width of 680mm. He is made of lightweight aluminum. The handlebar has a clamping diameter of 31,8mm. You sleep now and then times the hands while biking? This phenomenon belongs to the past with this handlebar. The backsweep of 25° ensures ergonomic grip of the handlebar. It describes the bend in the direction of the saddle and ensures the correct seating position.
