

Product data sheet

MAHLE Air conditioning compressor oil "PAG Öl YF"

Article number:	411784M3
Original number:	ACPL 22 000P
EAN:	4057635191517
EVP:	62.95 €

Technical data

Design	additive
Range	cooling system
Container type	can
Content	0.25 l
Type	vehicle, truck, commercial vehicle, marine
Fuel-efficiency (A-G)	fuel, diesel, gas
Weight	3.700 kg

Description

MAHLE air conditioning compressor oil "PAG Oil YF"

Universal, for all known air conditioning systems that use the new refrigerant / coolant, except for electric air conditioning compressors

Fully synthetic, hygroscopic oil based on polyalkylene glycol for lubricating and sealing most passenger car and commercial vehicle air conditioning systems. Suitable for R1234yf.

Note from the manufacturer: When using PAG oils, care must be taken to select the correct viscosity class (PAG 46, PAG 100). The specifications and approvals of the vehicle manufacturer must be observed. PAG oils are also hygroscopic. This means that they absorb moisture from the ambient air and bind it to themselves. For this reason, opened oil containers must be resealed immediately and the remaining oil can only be stored for a limited period. This also applies in particular to fresh oil containers on AC service units., **250 ml can, ISO 46**
