Product data sheet

BUSCHiNG Rubber block

Article number:	65044661
Original number:	100949
EAN:	2016504466011
EVP:	**63.10 €**

Technical data

Design	lift
Width	10.0 cm
Main colour	black
Height	6.0 cm
Type	scissors lift
Length	14.0 cm
Material	rubber

Description

BUSCHING rubber block
For electric and hybrid vehicles
The rubber block is used for scissor lifts for electric cars. It is robust and can also be used to lift other electric hybrid SUVs. Its solid base and conical shape ensure stability and optimum contact with the deeply recessed pick-up points on the vehicle. This ensures that sensitive components near the lifting points are not damaged. The contact surface of the rubber block has a cross groove that enables precise alignment with the lifting points and at the same time ensures non-slip contact. Limited universal use, provided that the shape, size and weight of the respective vehicle as well as the vehicle support mount match the body and the conical shape of the block.

Suitable for the following vehicles:
AUDI: Q4 e-tron, Q4 Sportback e-tron, e-tron GT, RS e-tron GT
BMW: iX, iX1, iX2, iX3, i4, i5, i5 Touring, i7
