

Product data sheet

CONWAY Electric MTB full suspension "Xyron ST 8.0" (#2)

Description

The "Xyron ST 8.0" is your ticket to uncompromising off-road fun. With 150 mm front and rear suspension travel, 29" wheels and a carbon frame that is both light and extremely robust, you're ready for anything the trail throws at you.

The Bosch mid-motor with 800 Wh battery gives you the boost you need to master long tours and conquer steep climbs. The Shimano "XT" 12-speed drivetrain ensures precise performance, while the hydraulic disc brakes provide reliable control.

The geometry puts you in an active, central position on the bike - perfect for technical passages. The handling is direct and agile. The tool mount under the top tube and the hidden kickstand mount on the rear triangle also make the bike extremely practical for everyday use.
