

AXA Dynamo "8201"

Description

Robust, simple & safe

The "8201" Dynamo from AXA has a robust appearance thanks to its aluminum housing. This has made it popular for many years.

Equipped with steel bearings and a steel impeller, this Dynamo can withstand shocks without any problems.

Thanks to the practical push connections, the "8201" is easy to connect. There are no loose parts that you can lose.

For safety, this Dynamo has an overvoltage diode which protects the lighting from burning out during peaks within the Power Supply.
