### Description

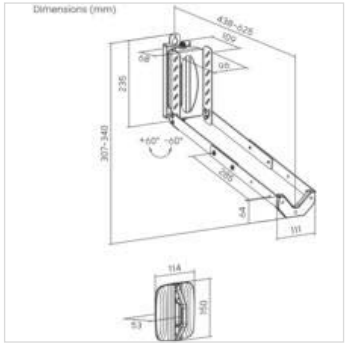

Be smart, mount smART! Our smART Expand wall bracket is a clever way to suspend your bike. Thanks to the intelligent design, you can position your bike perpendicular to the wall and the swivel arm can then tilt it 60° to the left or right. The additional tire stopper protects the wall from dirt and damage to the rear wheels.
The arm can be extended by three stages and allows you to adapt it to bikes of different sizes.
Tip: Mount smART Expand in a corner of the room to make optimum use of the vertical space and save space! CONTEC smART Expand can hold up to 35 kilograms and is therefore also ideal for e-bikes.

### Technical data

| | |
|---|---|
| Main colour | black |
| Material 1 | steel |
| Material 2 | plastic |
| Max. load | 35.0 kg |
| Weight | 2.152 kg |
