REINHEIMER Counterweight "FE-roll-stick-on "

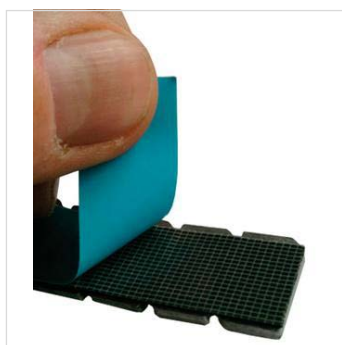

Description

REINHEIMER Balance Weight "FE-roll-stic-on" zincd, poly coated adhesive weights on plastic roll

This weight is galvanized and additionally protected by an elastic poly coating. It corresponds therefore to the requirements of the automobile industry according to German Institute for Standardization DIN 50 021 SS and ASTM B 117-73 after a 480 hours salt spray test. Due to the construction of the segment the weight is very easy to cut, because only the tape and the blue liners must be cut. The blue liner is in the dimensions coincide with the adhesive foil. The segments are easily separable without tools. Total height (with adhesive strap): 3,8mm, total width: 19mm, division in 1200 x 5g, total weight: 6kg, temperature range: -40°C to +250°C, plastic roll: Ø 340mm, mount hole: 16mm

Note: For processing, we recommending the rolling and cutting device 033114 (#6.51 28 57/1),, "easy 4"6000-grey", weights on fiber-reinforced foil (can be removed without residue!)

Note from the manufacturer: black carrier film, fiber-reinforced and covered with the blue protective film. This special film can be removed during a renewing process of the wheel. An annoying and time-consuming removal of adhesive residue is eliminated when using this weight.

Article number:	65136673
Original number:	037775
EAN:	2016513667034
EVP:	113.05 €

Technical data

Design	assembly
Width	19.0 mm
Features	temperature resistant, plastic coated, self-adhesive, universal
Main colour	grey
Container type	roll
Weight size	5 g
Height	3.8 mm
Material	plastic
Material 2	zinc
Assortment	1200 pieces
Version	weight
Capacity weight	6.0 g
