Description

The Latin word "Via" means "way" and gives its name to our bike bag collection, which is designed to provide you with practical luggage solutions for all your journeys.

With a volume of 16.5 liters, the Via Daily single bag offers you enough space to safely transport your provisions for your working day or shopping. It can be attached to the side of any standard Carrier in no time at all using bike hooks. The hooks can be hidden behind a zippered compartment if you want to carry the Bag with the included Shoulder Belt, for example.

Via Daily is made from 100% recycled and water-repellent polyester and has reflective elements on the sides for better visibility. Inside there is a large main compartment and two smaller inner compartments. On the outside, another zippered compartment offers space for small items.
