Product data sheet

SRAM Rotor "HS2"

Article number:	03074572
Original number:	00.5018.176.003
EAN:	710845862359
EVP:	**74.00 €**

Technical data

Mount	IS (6-hole)
Diameter	220.0 mm
Features	rounded edges, optimized heat dissipation, reduced noise
Main colour	silver
Secondary colour	black
Material	stainless steel
Weight	0.275 kg

Description

The SRAM HS2 stainless steel brake rotors have been specially developed for MTB and E-MTB and offer noticeably improved braking performance and reduced noise compared to previous rotors. This is made possible by the 2.0 mm thick rotors, an optimized profile for better pad traction and recessed spokes with a heat-dissipating coating that significantly improve heat management. The rounded outer edges increase safety and facilitate wheel installation.
