Dr. Pulley Slide support

Article number:	77395911
Original number:	SP1613-G D04-5875
EAN:	99999999
EVP:	5.62 €

Technical data

Design	backplate sliders
Weight	0.001 kg

Description

DR. PULLEY slide layer on the front variomatic unit

A very good fit with the special polymer nylon material, similar to the Dr. Pulley Vario rollers - prevents high wearing and achieves optimum sliding properties on the mounting plate. No need of additional greases because self-lubricating. They should be exchanged always at the same time with the Vario rollers to achieve a steady wear of the rollers and the slider. Usable for original Dr. Pulley and other variators, **Chinaroller** with motor 139QMA/QMB (5,8g)
