

LIQUI MOLY Additive "Öl-Verlust-Stop "

Article number:	41114919
Original number:	5182
EAN:	4100420051821
EVP:	61.39 €

Technical data

Design	additive
Range	engine
Container type	can
Content	1.0 l
Type	vehicle, commercial vehicle, small devices, oldtimer, marine
Fuel-efficiency (A-G)	fuel, diesel, gas
Weight	0.896 kg

Description

LIQUI MOLY "Oil-Leakage-Stop" Additive

Engine oil additive for all gasoline and diesel engines

Stops oil loss in leaky engines, regenerates rubber and plastic engine seals, reduces oil consumption through piston rings and valve guides, and counteracts the loss of viscosity in engine oils. Prevents freezing in winter, keeps rubber parts elastic, and thus extends their service life. Minimizes smoke formation, dampens engine noise, and prevents oil stains and environmental pollution. Also suitable for the care and deep cleaning of car tires and rubber mats.

Application: A 300-ml can is sufficient for up to 5 liters of engine oils. It can be added at any time; after adding, let the engine warm up. The sealing effect takes effect only after approximately 600–800 km. To ensure long-term effectiveness, reapply oil-leakage-stop after every oil change.

Note: Not suitable for use in motorcycles with an oil-bathed Coupling!, **1-liter can of "Pro-Line,"** for professional users
