

Product data sheet

SHIMANO Crank Set "GRX FC-RX600"

Description

Crank sets from SHIMANO

The GRX crankset from SHIMANO is available in 172.0 mm. The fact that the Crank Spider is made from aluminum means that it lasts particularly long and saves weight. There are two chainrings, with 30 teeth on the small one and 46 on the large one. Does your bike have a hollowtech II bottom bracket and a 10-speed driveset? Then this part will fit perfectly.
