CONWAY Electric MTB full suspension "Xyron LT 11.0" (#1)

Description

The "Xyron LT 11.0" Full Suspension E-MTBs is the most anticipated e-bike in the new "XYRON LT" series! Driven by the 5th generation Bosch "Performance CX" mid-motor and with a battery capacity of up to 1,050 Wh when used with an optional range extender, this e-bike supports riders up to a speed of 25 km/h.

The 29" wheel sets ensure excellent rollover behavior and stability, while the electronic 12-speed derailleur system from SRAM "GX Eagle AXS" ensures precise and smooth shifting performance.

The ROCK SHOX "Zeb Ultimate" fork and the ROCK SHOX "Super Deluxe Select+" Damper offer outstanding suspension that impresses with 170 mm fork travel and 160 mm frame travel, even in the most difficult terrain - no wonder, as it is one of the best ROCK SHOX has to offer. This combination ensures excellent traction and control, so that the "Xyron LT 11.0" masters even the most demanding trails with ease.

The hydraulic Disc Brakes guarantee reliable braking power in every situation. Designed for use on demanding all-mountain and challenging enduro trails, the "XYRON" meets the highest material requirements with a permissible total weight of 140 kg in category 4 of EN-17406.

Technical data

Battery capacity	800.0 Wh
Features	suspension fork, damper, electronic sliding aid
Colour designation	dark teal
Main colour	green
Travel	170 mm
Gender	gents
Gears	12-speed
Type	full suspension
Wheel size	29 "
Material 1	carbon
Engine power	250 W
Frame height	42 cm
Weight	23.700 kg
Stem length	40.0 mm
Permissible system weight	140 kg
Chainstay	453 mm
Toptube	595 mm
Wheel distance	1256 mm
Reach	455 mm
Seat tube	420 mm
Seat angle	76.6 °
Stack	630 mm
Steering tube	115 mm
Steering tube angle	63.5 °
