

CONTEC Combination Curly Cable Lock "PowerLoc"

Description

Power for safety

The "Powerloc" combination spiral cable lock by CONTEC offers safety and comfort at the same time thanks to the flexible steel cable with a durable vinyl coating. With a length of 185 cm, the bike can be locked up almost anywhere. The "X2-Power Double Bolt Locking System" increases pull resistance by locking the bolt from both sides. The Click-Combo-Gear-System makes it difficult to drill or break the lock by using steel balls in the adjustment mechanism. The lock is supplied with a bracket and has the CONTEC security level 7.
