Product data sheet

Dr. Wack Bike Cleaner "F100 Bio"

Article number:	03563871
Original number:	2871
EAN:	4006539028719
EVP:	**384.99 €**

Technical data

Range of application	bike
Main colour	transparent
Container type	canister
Content	25.0 l
Type	cleaning
Weight	26.520 kg

Description

Even fitter thanks to a facelift
When you make something very successful even better, you Stay for perfection. This is exactly what CAMELBAK has done with its best-selling "eddy" sports water bottle. It goes without saying that the "eddy+ insulated" has also undergone some improvements.

The core of the facelift is that the popular "Bite Valve Bottle Bite" now achieves 25% more flow per sip. The Water Bottle has also been given an elegant new Cover and an improved 2-finger Handle.

Thanks to the universal thread, all "eddy" water bottles can now be easily fitted with a new Connector. The proven quality, durability and ease of cleaning have not changed.

In addition, it is easy to drink with one hand without tipping the bottle. This is because the bite valve can simply be flipped up with the thumb.
And the stainless steel design with double-walled vacuum insulation keeps your drink cold for hours. Pure stainless steel is of course also BPA-free and tasteless. Only the pure taste of your drink counts.
