Description

The QiO Compact PXSIX+ is designed for anyone looking for a compact e-bike with high load capacity and the power to handle longer distances. It can accommodate riders weighing up to 150 kg. At the same time, the load can be distributed across a Carrier, front rack, or Trailer. This makes the model ideal for daily commuting as well as for shopping, day trips, or tours with extra luggage.

The 3X3 SIX hub gear system offers six gears with even gear ratios of 24 percent each. Combined with the Bosch Performance Line PX drive, this results in clearly defined shifting for rides in the city, in the countryside, and on moderate terrain. The 800-Wh battery provides enough capacity for longer rides.

On varied routes, the suspension seatpost enhances riding comfort. Hydraulic Magura 4-piston disc brakes and Schwalbe Pick-up tires round out the rugged, durable spec. For late-night rides home, the Briq-S Front Light illuminates the path with 60 lux.
