### Description

**Brackets warm, dry and firm**
The CONTEC "Freeze Waterproof" combines high thermal performance with a high level of comfort. To keep your hands warm, the entire Glove is waterproof thanks to the Hi-Pora membrane, while the neoprene pulse warmer and the softshell parts ensure a comfortable temperature. The "Freeze Waterproof" can be individually adjusted using the Velcro fastener.

The ergonomically shaped palm padding provides comfort when riding with a lot of shocks. And the palm is coated with silicone to prevent slipping off the grips even in wet conditions. The reflective print on the backhand ensures visibility. With terry thumb and in black/coolgrey.

### Technical data

| | |
