CONWAY Electric SUV "Cairon SUV 5.0" Mod. 23

Description

The SUVs from CONWAY combine off-road capability and the best control with exciting riding and comfort. For even more riding fun, the developers have upgraded the "Cairon SUV 5.0" with a more powerful engine and the longest-range BOSCH "PowerTube" Battery, which is fully integrated into the Frame.

With the four support levels of the powerful BOSCH "Performance CX" engine and the 11 gears of the SHIMANO "Deore" derailleur gears, support up to 25 km/h can be easily adjusted. The 750 Wh Battery can either be removed downwards for charging or you can simply leave it in the frame and charge it via the Charging Socket on the left-hand side of the frame.

The 58 mm wide CONTI Tires are finely profiled and, together with the 120 mm Suspension Fork from SUNTOUR, also absorb the surface of field and forest paths such as cobblestones well so that you can enjoy the best performance and comfort on unpaved paths.

The hydraulic Disc Brakes from TEKTRO (disc diameter front and rear: 180 mm) provide the necessary safety both on fast downhill rides and in city traffic. The braking power can be finely dosed, but it won't let you down if you need it spontaneously. Thanks to the Fender and lighting system, the "Cairon SUV 5.0" can be ridden late into the evening, whatever the weather.

Technical data

Battery capacity	750.0 Wh
Features	suspension fork, electronic sliding aid, fender
Colour designation	shadowgrey metallic / red metallic
Main colour	grey
Secondary colour	red
Travel	120 mm
Gender	ladies
Gears	12-speed
Type	SUV
Wheel size	29 "
Material 1	aluminium
Engine power	250 W
Frame height	41 cm
Weight	28.400 kg
Stem length	65.0 mm
Permissible system weight	140 kg
Chainstay	455 mm
Toptube	585 mm
Wheel distance	1162 mm
Reach	409 mm
Seat tube	410 mm
Seat angle	74.5 °
Stack	647 mm
Steering tube	120 mm
Steering tube angle	67.0 °
