Description

The "Swan-Retro FT Alu" from Excelsior exudes the charm of a classic city bike with its elegant flexible arm frame. But thanks to its aluminum frame, it's not only more modern but also lighter.

The upright and elegant frame not only adds style but also ensures good visibility in traffic. Perfect for your daily rides to college or the office. With the front carrier, you can keep an eye on your luggage. And the rear carrier offers space for bike bags or can be loaded with a Fixture Strap. The Steering Stabilizer ensures that the Front Wheel remains stable when parking and loading the bike.

The bike is also fully equipped in accordance with road traffic regulations. With its modern and reliable lighting system—featuring a Hub Dynamo, LED Front Light, and Rear Light—you'll not only be seen but also always have a clear view.
