Product data sheet

TRELOCK Battery LED Front Light "LS 760 I-GO Vision"

Article number:	07102510
Original number:	8005096
EAN:	4016167065192
EVP:	**147.99 €**

Technical data

Design	front light
Features	USB charging connection, charging via USB
Attachment	handlebar attachment
Range of application	bike
Main colour	black
Functions	diverse light modes
Operating time max.	9 h
Illuminant	LED
Luminosity	100 lux
Material 1	aluminium
Material 2	plastic
Material 3	steel
Material 4	lithium-ion
Weight	0.140 kg
Power supply	battery mode
StVZO conform	yes

Description

Battery power
The "I-Go Vision" from TRELOCK combines modern technology in a small space. It illuminates the road in front of you with up to 100 lux as bright as day. And with a visibility range of 120 m, the Battery LED Front Light is also recommended for off-road tours. Especially as, according to the manufacturer, it has a visibility of 6,500 m. In road traffic, the StVZO-approved Front Light also provides extra safety with its side lighting.

In the lowest of a total of five light levels, the "I-Go Vision" lights for up to 12 hours. The remaining light duration is shown on the "Full Control LCD Display" on the top.

The fact that the Battery LED Front Light can be easily removed from the Bracket on the Handlebar has another side effect: it can also be used as a Powerbank when it is not shining.
