

SHIMANO Chain "XT CN-HG 95"

Description

Light & stable

The "XT" groupset has always stood for the upper middle class at SHIMANO. Reliable shifting and high-quality brakes ensure the very best performance in every situation. With DYNA-SYS technology, the "CN-HG 95" chain is specially designed to meet the requirements of the 10-speed drivetrain of your MTBs.

The asymmetrical chain ensures smooth shifting, scores points with its low weight and is particularly stable. Thanks to the narrow gear gradation, the chain runs particularly efficiently and won't let you down even in rough terrain. With connecting pin. Note on mounting: Chain can only be mounted in one direction. Links with signum must be on the outside.

Article number:	07340326
Original number:	ICNHG95116I
EAN:	4524667984665
EVP:	37.95 €

Technical data

Amount of chain links	116 pcs.
Width in inch	5/64 "
