Transmission standard	bluetooth 4.0

Description

BEELINE "Anniversary Edition" Navigation Device

Motorcycle and bicycle navigation with up to 14 hours of battery life and map-based navigation in "turn-by-turn" mode.

Motorcycle or bike user profiles can be set up in the free Beeline app, which is also used for route planning. Ultra-high-resolution, anti-glare color display; improved, map-based display of precise turn-by-turn directions.

Navigation mode, USB charging function, and indicator LEDs; RockerTop2 Taster that are easy to operate even while wearing gloves. The compass function is available as an alternative to classic routing. **Route planning and import are also possible via the Calimoto app.**

USB-C charging, 600 mAh Battery with over 10 hours of ride time, compatible with iOS 13 / Android 8.0, minimum Bluetooth 4.0 required, 36.8 mm IPS TFT anti-glare screen, warning LED, aluminum housing with diamond-cut sides, IP67 moisture protection rating, Ø 53 mm, height 20.5 mm, weight: 60 g, theft protection via a twist-lock mechanism on the device Bracket, one Bracket included.

"Anniversary Edition" Highlights:

To celebrate Beeline's 10th anniversary, 2,500 strictly limited-edition Anniversary Edition units were released worldwide.

Includes 12 months of Beeline Plus for free, featuring speed camera and radar alerts (where supported), real-time traffic information, and 3D maps.

"Anniversary Edition" Giveaway:

2 spots for the Great Malle Rally 2027, a 2,500-mile journey through England, Wales, Ireland, and Scotland.
