

CONTEC Cassette "Grad"

Description

Enjoy better ride quality for longer with our Grad cassettes. There are no compromises on the function and durability of our cassettes, thanks to a mix of material for weight and wear-optimisation: While the largest and heaviest sprockets are made of aluminum to save weight, the smaller sprockets are made of high tensile steel to better withstand the larger torques, which loads on fewer teeth. Thus, our cassettes offer increased durability compared to conventional sprocket sets.

You benefit from this, as it offers you higher mileage (and therefore longer maintenance intervals) as well as superior shifting performance for longer. Our Grad cassettes have special climbing aids for the chain, which make each of your gear changes faster and smoother, so you do not have to think about shifting and can fully concentrate on riding. This cassette is suitable for 11-speed gears and has 11-50 teeth.

Technical data

Amount of teeth	11, 13, 15, 18, 21, 24, 28, 32, 36, 42, 50
Installation	spider
Mount	cassette
Main colour	silver
Secondary colour	black
Freewheel body	HG-M, MTB
Large sprocket	50 teeth
Small sprocket	11 teeth
Material 1	steel
Material 2	aluminium
Sprocket changeable	partly
Weight	0.582 kg
System compatibility	11-speed
