Description

WIPPERMANN 9-speed chains

Due to high speeds, powerful drives and higher bike weight, e-bike chains are exposed to far greater loads than conventional chains. This is why the 9sE from WIPPERMANN is specially designed for use on motorized bikes. The 9sE is suitable for 9-speed drives. As the chain with its 124 links is made of steel, it is particularly hard-wearing. A Connecting Link is included to connect the two loose ends of the chain.
