

curana Mudguard set "CLite"

Description

Protection from dirt

Tired of mud stains on your Trousers? The CURANA CLite Fender Set protects you from dirt and splash water. It is easy to attach to the stays of your bike. Simple and with a timeless design, it fits every bike.

The experts at CURANA use the so-called sandwich construction method in their production. This means that the set consists of three layers, with the plastic layer being encased in aluminum. This makes it both light and very stable, and increases its torsional rigidity (how much a component twists under load).

Article number:	03414315
