CONTEC Bottle Cage "Aero Flex"

Description

Contrast & comfortable

With the CONTEC "Aero Flex" bottle cage, the bottle is always at hand. This bicycle bottle cage is a universal companion: It fits all standard sizes and gives each bottle optimal support due to its flexibility. This is ensured by the high-quality elastomer insert.

The aluminium makes the bottle cage lightweight. With only 24 g, it doesn't add too much weight to the bicycle - and with the supplied stainless steel bolts it is immediately mounted. A functional component in chic black.
