

Product data sheet

atranvelo Transport Carrier "Front Base AVS"

Description

"Front Base AVS" Carrier

The "Front Base AVS" from ATRANVELO is a lightweight Front Wheel carrier for 26" and 28" bikes. It is supported at the bottom by the attachment to the Axle and holds onto the Fork at the top. The Front Light is attached to the side lamp brackets instead. It carries bags and baskets up to 10 kg via the AVS transport system. It weighs 480 g itself.
