Description

The plus for comfort and safety in the city
Secure grip, smooth rotation and increased durability are priorities for those looking for a good pedal for the needs of everyday life in the city. The CONTEC city/touring pedal "Quick +" is made of a robust, one-piece nylon body and coated with a special sandpaper-like grip tape, which is also slip-resistant in wet conditions and ensures safe pedalling and efficient power transmission.

The yellow reflectors of the pedal are StVZO-compliant (German Road Licensing Regulation) and ensure good visibility in low light conditions. The sturdy boron steel axle and the smoothly rotating, sealed ball bearing allow for easy pedalling and protection against penetrating dirt and moisture and thus premature wear.

The CONTEC city/touring pedal "Quick +" is equipped with the typical 9/16" thread. Ideal for those who depend on their city bike every day and don't want to miss out on comfort.

Technical data

Design	Tour/Trekking
Main colour	black
Thread	9/16
Bearing type	ball bearing
Material 1	plastic
Housing material	plastic
Frame material	plastic
Weight	0.347 kg
