## Ate Brake fluid "Typ 200 "

### Description

#### ATE Brake Fluid "Type 200"

**DOT4, ISO 4925, class 4, boiling point min. 280°C, wet boiling point min. 198°C**

For hydraulic vehicle brake and clutch systems. SAE specification J1704-FMVSS 116/ DOT4

**Attention:** Meets and exceeds, among other things, the requirements of brake fluid specifications FMVSS-Nr. 116 / DOT 4, SAE J1704 and ISO 4925, class 4, **1l can**

**Article number:** 41200221

**Original number:** 03.9901-6202.2

**EAN:** 4006633108256

**EVP:** **37.40 €**

### Technical data

|                      |                                                               |
|----------------------|---------------------------------------------------------------|
| Range of application | motorcycle, scooter, passenger car, truck, commercial vehicle |
| Container type       | can                                                           |
| Content              | 1.0 l                                                         |
| Type                 | brake                                                         |
| Quality              | DOT 4                                                         |
| Weight               | 1.080 kg                                                      |
