

Product data sheet

CONWAY Electric SUV "Xyron SUV 4.0" (#1)

Description

Our "Xyron SUV 4.0" is a versatile SUV e-bike that is suitable for both off-road and on-road use. With a robust aluminum frame and its patented 4-bar rear suspension, it offers perfect grip, pleasantly sporty handling and efficiency on any surface.

Equipped with a powerful Bosch mid-motor, the 750 Wh battery capacity provides reliable support up to a speed of 25 km/h. The 29" wheels contribute to stability and a comfortable ride.

The 12-speed derailleur gears from Shimano ("Deore" model) enable precise gear changes, while the chain drive ensures efficient power transmission. Safety and control are ensured by the hydraulic disc brake system, which provides reliable braking power even in demanding situations.

The suspension of the "Xyron SUV 4.0" includes a fork suspension travel of 150 mm and a frame suspension travel of 140 mm, which ensures a high level of comfort, especially on uneven terrain. Thanks to Fenders and powerful lighting, the E-SUV is ready to go out in any weather.
