Technical data

Design	system MTB/trekking
Main colour	white
Thread	9/16
Bearing type	ball bearing
Housing material	aluminium
Weight	0.424 kg
System	on both side

Description

System Pedal from SHIMANO

Do you want a pedal that is non-slip and helps improve your bike performance? Then take a closer look at SHIMANO's PD-M 520. The firm connection between the pedal and shoe means that pedaling power is transferred more efficiently into propulsion. The possible consequence? You become faster.

Shoes with SHIMANO's SPD system can be used in combination with this pedal.
