Description

Stay hydrated! Stay hydrated on every ride with the Stand Cage.

Thanks to the material composition of nylon and 30% recycled carbon, the Stand Cage is particularly light and weighs just 19 grams. This makes it ideal for road cyclists.

Especially on longer tours or in warm temperatures, it is important that you drink a lot. With the holder, you can easily reach for your bottle while riding and stow it away again afterwards. It stays safely and securely stowed away.
