

SRAM Cassette "PG-1230"

Description

"PG-1230" NX-Eagle cassette

The NX-Eagle cassette "PG-1230" offers you entry into the world of 12-speed drivetrains from SRAM. And the best thing is: You can easily mount the cassette on your SHIMANO HG freehub. The 11-50 teeth ensure that you have the right gear available in every situation.
