ergotec Pedal "EP Superlight"

Description

Pedals from ERGOTEC

Tired of slipping off the pedals on steep bends or difficult terrain? The EP Superlight from ERGOTEC is a System Pedal that creates a fixed connection between the Pedal and special shoes to counteract this.

The pedal body and frame are both made of aluminum, which - along with steel - is a tried and tested material for pedals. It combines weather resistance and rigidity with a comparatively low weight. To make pedaling more efficient, stable and comfortable, SHIMANO has developed the SPD system, which is also compatible with this pedal.

Article number:	07360472
Original number:	86065001
EAN:	4016538100859
EVP:	99.95 €

Technical data

Design	system MTB/trekking
Main colour	black
Thread	9/16
Bearing type	sealed bearing
Housing material	aluminium
Frame material	aluminium
Weight	0.457 kg
System	on one side
