Description

BOBIKE Holders
There are numerous options for attaching BOBIKE child seats securely, safely and practically to the bike, depending on the frame and its dimensions.

The Universal Adapter "Click & Go" is designed for Carrier mounting (use only with Carriers according to EN ISO standard 11243; please ask your bicycle dealer).

The classic Holding Arm set works with a bar for the seat and a Holder for the seat tube (with dimensions between 28 mm and 40 mm). If you also want to use the child seat on a second bike, you can also purchase the child seat bracket separately.
