| **EVP:** | **13.99 €** |

### Technical data

| | |
|---|---|
| Range of application | bike |
| Main colour | black |
| Secondary colour | green |
| Container type | spray can |
| Content | 0.25 l |
| Type | care |
| Material | sheet metal |
| Material 2 | plastic |
| Weight | 0.299 kg |

### Description

**Matt surfaces, such as paints or plastics, e.g. bicycle frames or helmets**
Weather influences such as rain, sunlight and dirt attack the paints and cause them to become unsightly over time. As there were hardly any matt paints on bikes until a few years ago, care products are not specifically designed to meet the needs of matt paints. The use of conventional care products can change the appearance of matt paints and, in the worst case, make them shiny.

Preserves the original matt effect and offers long-lasting protection
- Extremely long-lasting protection against environmental influences such as rain, UV radiation, etc.
- Makes water bead up
- Has a water and dirt repellent effect
- Easy to apply
- Also suitable for the care of other matt objects, e.g. helmets
