Product data sheet

fi'zi:k Handlebar Tape "Terra Microtex Bondcush Tacky"

Article number:	08199721
Original number:	BT12A00057
EAN:	8021890498915
EVP:	**43.90 €**

Technical data

Width	3.0 cm
Features	self-adhesive
Range of application	Gravel, Road
Colour designation	light grey
Main colour	grey
Length	235.0 cm
Material	Microtex
Bar plugs material	Plastic
Material thickness	3 mm
Surface	non-slip
Weight	0.128 kg

Description

For the best grip on gravel
Making off-road heroes happy. A special handlebar tape for gravel bikes is something special. With the "Terra Microtex Bondcush Tacky", FIZIK presents a grip tape that is perfect for anyone who rides their bike off-road.

The design of the handlebar tapes meets the highest requirements. For example, a layer of polymer foam helps to dampen vibrations and shocks. In combination with 3 mm thick Microtex, this results in comfort and outstanding durability. The Handlebar Tape is particularly versatile.

There is no adhesive strip. Instead, a gel layer promises additional damping. It also makes it easier to remove the tape when you want to clean the bike. In addition, the non-slip tacky surface with a textured finish provides very good grip in all conditions.

The Handlebar Tape weighs 71 g and is available in a range of attractive paints to suit gravel and off-road.
It enables high performance, especially off the beaten track.
