### Technical data

|                      |               |
|----------------------|---------------|
| Design               | adhesive      |
| Features             | high-strength |
| Range of application | metal         |
| Container type       | bottle        |
| Content              | 5 ml          |
| Weight               | 0.010 kg      |

### Description

#### LOCTITE Retainer "648"

#### for bonding cylindrical parts, high-strength, one-component

Cures under tight air between tight-fitting metal surfaces and allows the transmission of higher forces and performance in existing geometry and design solutions. Can also be used on passive materials. Proven tolerant to low pollution over industrial oils. Especially suitable for clearance or press-fit connections., **5ml bottle, self-service card**
